OPEN POSITION

Job Title: Fabrication Machine Operator

Regular Temporary Full-time Part-time

Job Duties/Experience Required:

Learn to operate all Gateway Machines. Qualified applicants must be able to set-up and operate basic machinery used at JCI in selecting operation sequences, tooling, speed and feeds, torch travel, etc. on equipment, including but not limited to saws and CNC burning machines. Candidate must be detail oriented in processing the paperwork utilized in the manufacture of parts (bills of material, dispatch lists, and work orders). Candidate must be able to interpret sketches or simple orthographic detail drawings and be familiar with material used at the respective machine. Candidate should have own tools or be willing to acquire own tools over a reasonable period of time (6 months to one year). Desire applicants with strong technical, self-management, and team skills..
