US YOUR USED**

**BUY A REBUILT UNIT OR
HAVE US REBUILD**

RELY ON US

We have you covered. Quality at the KPI-JCI Rebuild & Repair Center is a guarantee because we have the strictest of criteria for what constitutes a rebuild:

- ▶ Each project is completely disassembled until all that remains are individual components
- ▶ Each part is thoroughly inspected and assessed
- ▶ Components which do not measure up to our high standards are replaced or rebuilt

Rely on us to provide you with quality rebuilt components and units. Additionally, you can count on a fair deal when you trade-in or sell us your used components or units.
